# English Exam

## The Effects of Stress

There is a famous expression in English: "Stop the world, I want to get off!" This expression refers to a feeling of panic, or stress, that makes a person want to stop whatever they are doing, try to relax, and become calm again. 'Stress' means pressure or tension. It is one of the most common causes of health problems in modern life. Too much stress results in physical, emotional, and mental health problems.

There are numerous physical effects of stress. Stress can affect the heart. It can increase the pulse rate, make the heart miss beats, and can cause high blood pressure. Stress can affect the respiratory system. It can lead to asthma. It can cause a person to breathe too fast, resulting in a loss of important carbon dioxide. Stress can affect the stomach. It can cause stomach aches and problems digesting food. These are only a few examples of the wide range of illnesses and symptoms resulting from stress.

Emotions are also easily affected by stress. People suffering from stress often feel anxious. They may have panic attacks. They may feel tired all the time. When people are under stress, they often overreact to little problems. For example, a normally gentle parent under a lot of stress at work may yell at a child for dropping a glass of juice. Stress can make people angry, moody, or nervous.

Long-term stress can lead to a variety of serious mental illnesses. Depression, an extreme feeling of sadness and hopelessness, can be the result of continued and increasing stress. Alcoholism and other addictions often develop as a result of overuse of alcohol or drugs to try to relieve stress. Eating disorders, such as anorexia, are sometimes caused by stress and are often made worse by stress. If stress is allowed to continue, then one's mental health is put at risk.

It is obvious that stress is a serious problem. It attacks the body. It affects the emotions. Untreated, it may eventually result in mental illness. Stress has a great influence on the health and well-being of our bodies, our feelings, and our minds. So, reduce stress: stop the world and rest for a while.

### I. Read the text and answer the following questions from the text

1. Which of the following is not a common problem caused by stress?

A. physical problems

B. anecdotal problems

C. mental problems

D. emotional problems

2. According to the essay, which of the following parts of the body does not have physical problems caused by stress.

A. the arms

B. the stomach

C. the lungs

20. Hurry up! The symphony ( ***already,begin***)

---

**III. Match the expressions (1to6) with their meanings**

1. Acceleration

2. First law of motion

3. Friction

4. Mass

5. Momentum

6. Newton

a. is the standard unit of measure for force.

---

b. is a measurement of mass in motion. It is equal to the mass times the velocity of an object. It is a vector measured in newton-seconds.

c. is a measurement of how much matter is in an object. It is usually measured in kilograms.

d. . is the resistance of motion when one object rubs against another. It is a force and is measured in newtons.

e. states that any object in motion will continue to move in the same direction and speed unless external forces act on it.

f. is the measurement of the change in an object's velocity. It is equal to the change in velocity over the change in time. It is a vector.

**IV. Writing a CV**

**a**. Parts of Nisa's CV

Nisa Thaoto is a nurse from Thailand.

Look at the details from her CV (a-f), and match them with the right heading in her CV.

1. Personal details
2. Date of birth: 30 April 1992 2.
3. Education and qualifications
4. 3. Work experience
5. 4. Skills
6. 5. Interests
7. 6. References

---

a. Date of birth: 30 April 1992
b. 2011-2012 nurse at Bumrungrad International Hospital, Bangkok
c. I enjoy football and played for the women's team at school.
d. Languages: Thai (fluent); English (elementary). UK driving license
e. 2010-2011 Boromarajonani College of Nursing, Bangkok (Thailand). Diploma in Nursing
f. Mr Mark Hargreaves, ESOL lecturer, Beechen College mhargreaves@beechen.ac.uk

---

**b. Nisa's CV : headings missing : Complete Nisa's CV. Write the headings in the right place on the dotted lines (…).**

---

a. Education and qualifications b. Personal details c. References d. Interests e. Work experience f. Skills

---
